Economy Your Watchword Purity Your Standard

Your Uncle Sam wants you to be as saving as possible in the matter of Food, but there is not a citizen of these good old United States that he wants to go hungry.

In the matter of Conservation of food, remember this: The Best goes the longest way. You cannot economize by using the cheapest food products obtainable. Highly nourishing food comes higher in price and is the cheapest in the long run.

Feed your family from our store. We are constantly on the watch out for the best from every viewpoint. If it is pure and wholesome and at the same time highly nourishing, we have it. 'Tis the very best way to economize.
